# Operate a more profitable C-store

DTiQ improves how C-stores are managed through advanced analytics, intelligent video, and custom loss prevention solutions.

Our solutions manage areas of your operation including **speed of service, food handling, loss prevention, loyalty, and more.**

Intelligent video

DTiQ's video solution ties footage to event triggers, letting you easily identify and review critical incidents or suspicious transactions in just a few minutes daily.

Book a demo

Theft prevention

Advanced video surveillance flags suspicious employee behavior and transactions for easy verification and the ability to quickly stop theft and fraud.

A trusted solution

DTiQ currently oversees 190,000 cameras across 45,000 locations that trust us to keep an eye on their operations.

Advanced analytics

DTiQ's business intelligence platform delivers powerful insights to help you grow your C-store operation.

Data analysis

DTiQ's loss prevention algorithm analyzes your transaction data to identify potential instances of discount fraud, unauthorized voids, and other forms of financial loss.

360iQ dashboard

Combine video, live sales, alerts, indicators, and reports to create an unparalleled view of your entire operation.

Expert services tailored to your C-store operations

Auditing

Trained experts use advanced algorithms and remote observation to deliver unparalleled insights into your C-store operations.

Support

DTiQ's support team is available 24/7/365 to respond to critical incidents or troubleshoot any technical difficulties you may be experiencing.
