

How to Share Video Guide

360iQ not only allows you to view video from your locations in real time, but also lets you share a link to that video with relevant members of your organization.

Note: You can also share video via the **Cloud Archive** and send .mp4 clips to any email address. As detailed below, the **Save link** feature is only a bookmark, and it requires logging into a 360iQ user account to view.

To share video from 360iQ, proceed as follows:

1. Log into 360iQ.

2. Navigate to the Video tile via the Home screen or Quick bar.

3. Select your Organization.

♥ Locations ス	🔮 Мар
★ ADD VIEW	st Map Satellite
Q Search Search	Lewistown

5. Here, you can view Video footage of your Location. By default, the first six cameras will be displayed. To create a shareable video link, click the **three dots** (more) icon in the bottom right corner of the screen. Then, click **Save link**.

- 6. A window will pop up. To copy and share the link, click **Copy**. You can then share the link with anyone via email, social media, or text message. Once you are finished, click **OK** to close the window.
 - a. Note: To view shared video, you must be logged in.
