

Live and Historical Video Guide

Using 360iQ, you can view, manage, and share video from all your locations, including live and historical video footage.

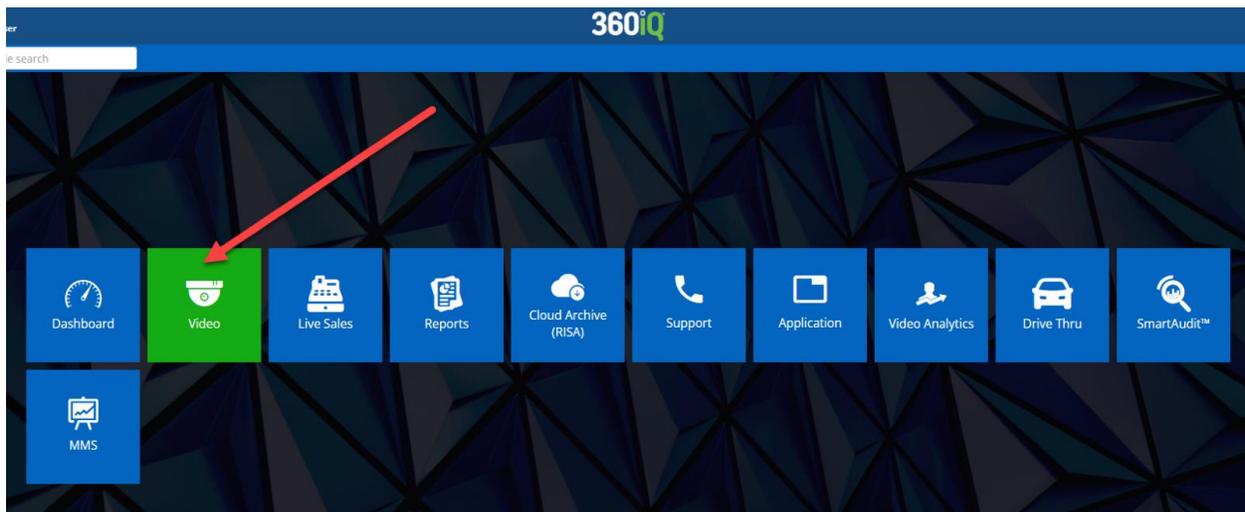

Content

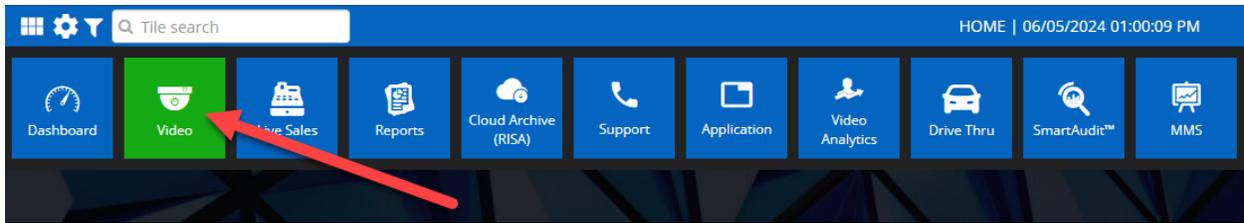

In this guide, you will learn about the following topics:

- [How to Access Video](#)
- [Live Video](#)
- [Historical Video](#)

How to Access Video

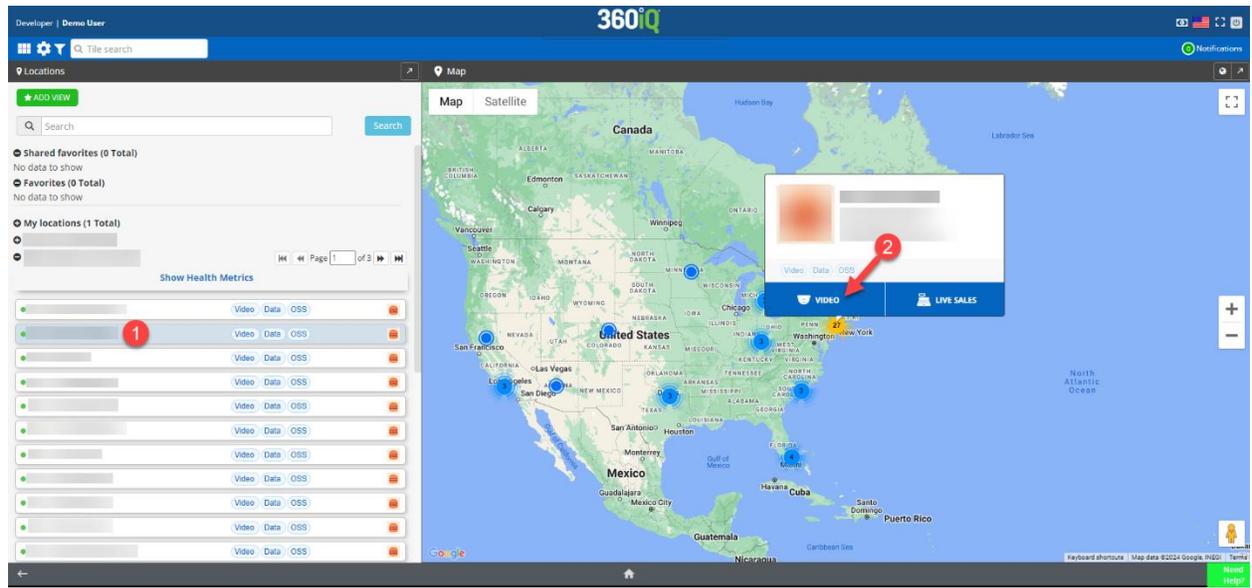

To access live and historical video, navigate to the **Video** tile via the **Home screen** or **Quick bar**.

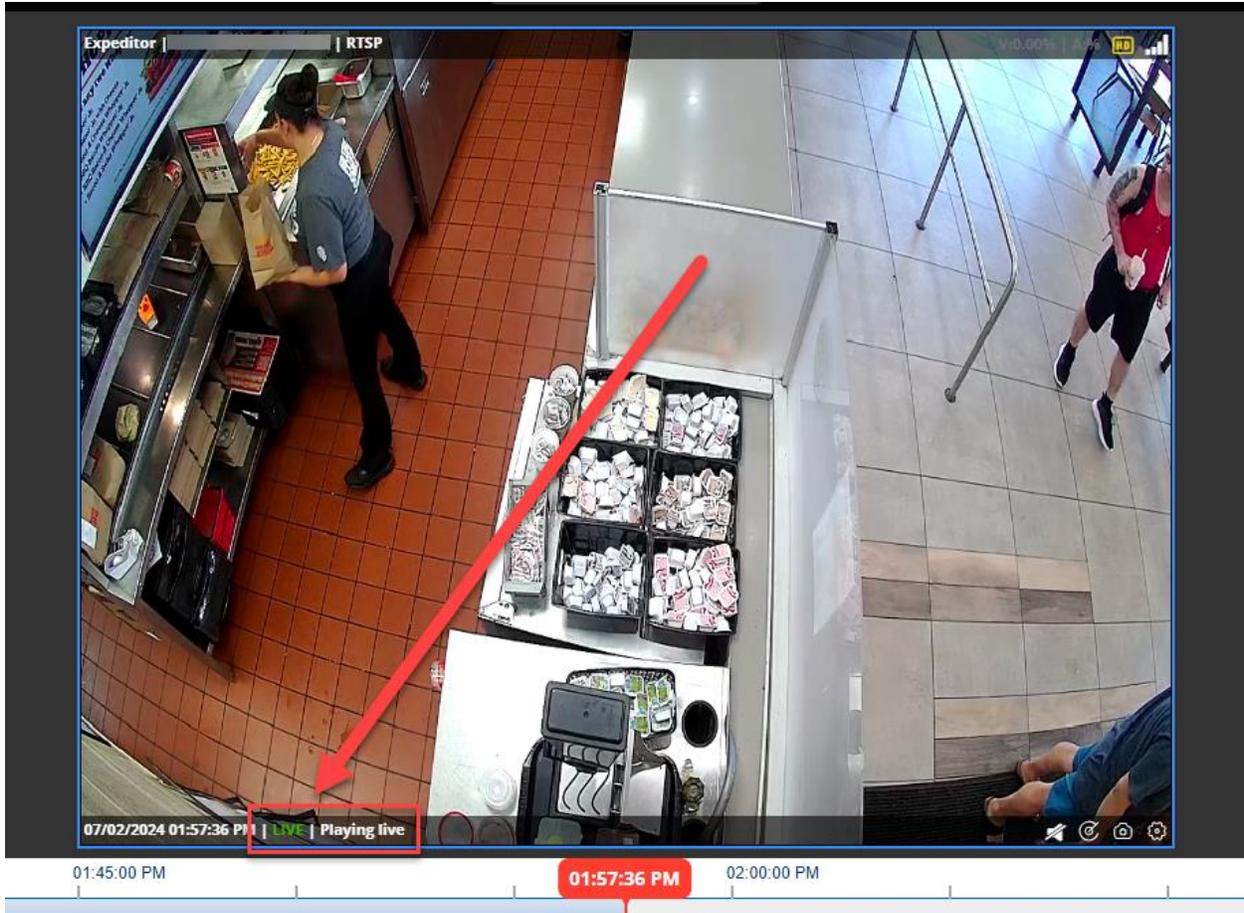

Choose your desired location from the list of **Locations** for your organization.

Then, click the **Video** tab to access the camera feed for that location.

Live Video

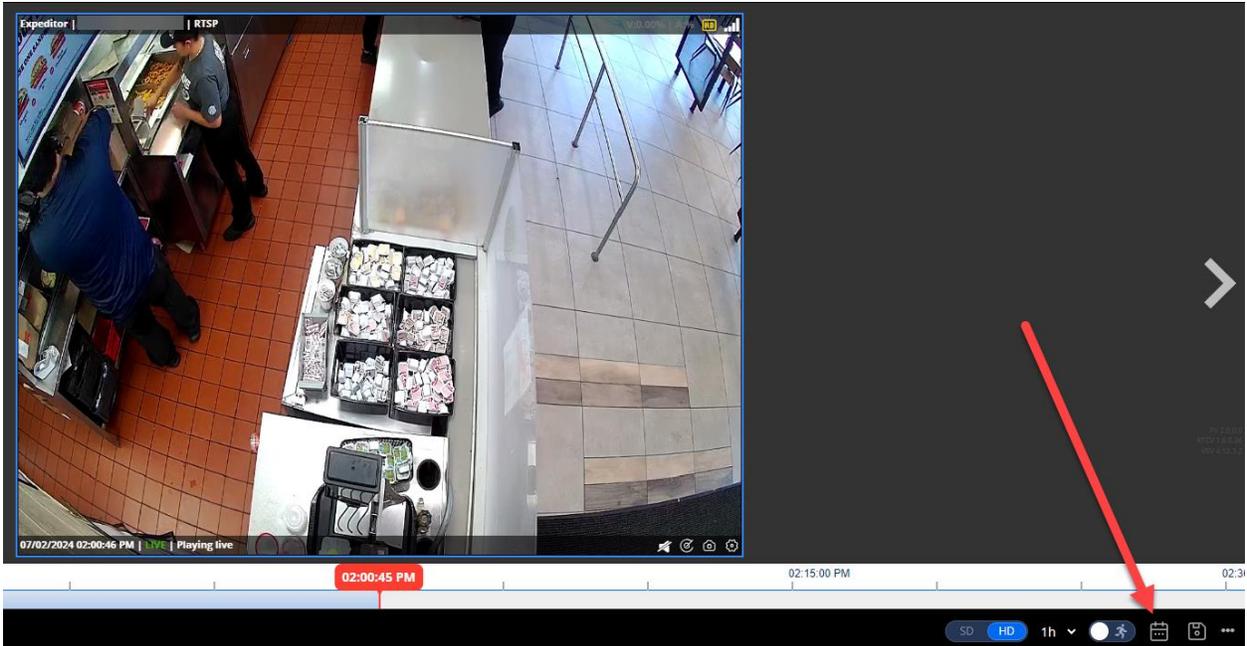

When you select a location from the Video tile, you will automatically be connected to live video. Live status of video is indicated by the green **LIVE** label in the camera view.

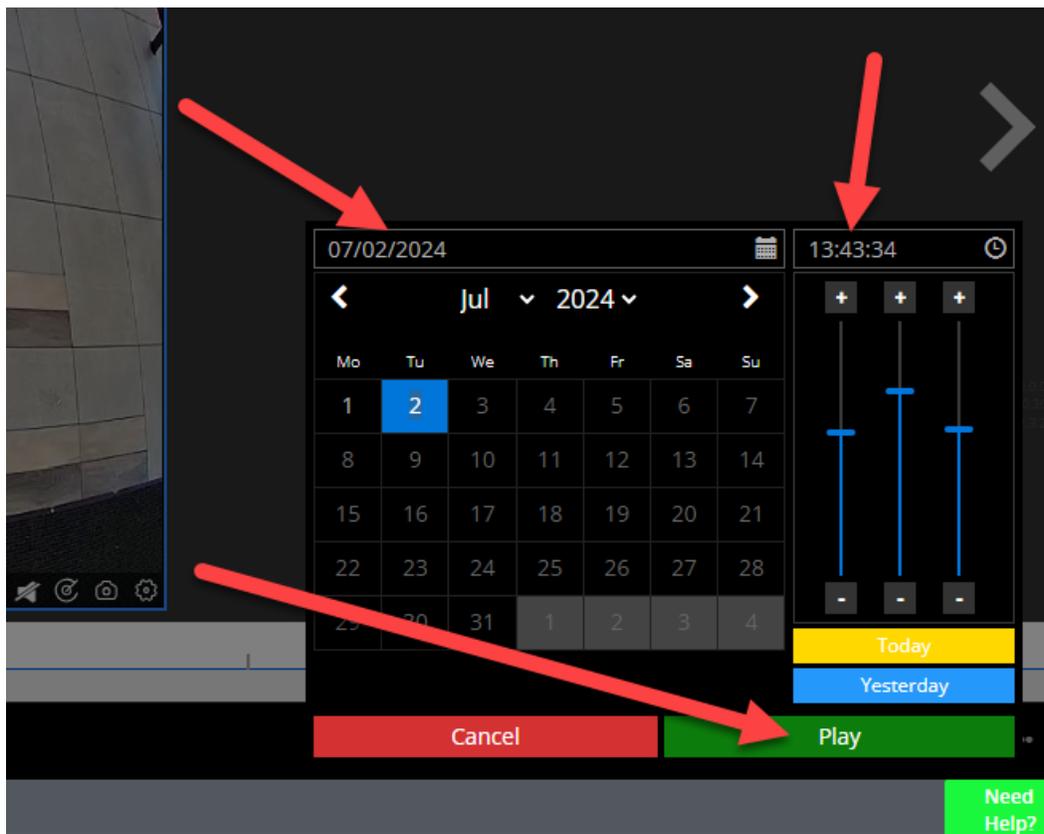

Note: If you are viewing historical video and would like to return to live mode, click the **LIVE** button located on the bottom left-hand corner of your screen.

Historical Video

To view historical video, click on the **calendar**  icon located on the bottom right hand of the video navigation bar.

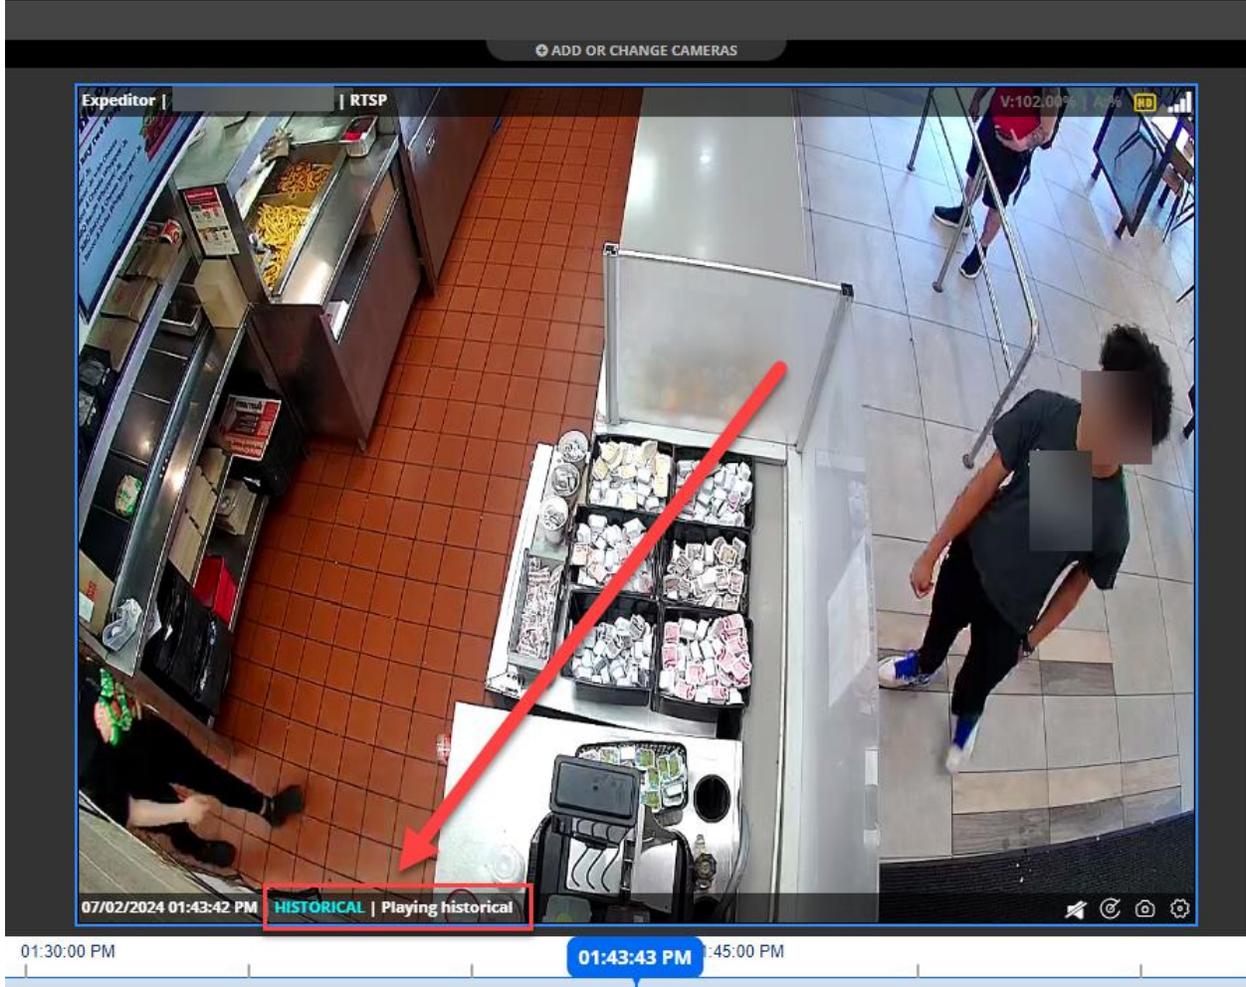

Next, select the desired date and time, which is displayed in military time (e.g. 00:00 – 11:59). Then, click **Play** to view the footage from that day.

When viewing recorded video, you will see a teal-colored **HISTORICAL** label on the

camera views.
